

(8) Casing and Cementing

WHO SHOULD ATTEND

This short course is intended for personnel responsible for Drilling activities and its management.

COURSE OBJECTIVES

To provide a comprehensive approach to casing design and practice, cementing methods and operations.

CONTENT

- Casing design
- Designing combination strings
- Casing handling equipment and running procedures
- Cementing materials and additives
- Rheology and displacement
- Primary cementing
- Liner applications and liner cementing
- Liner calculations
- Drillable and retrievable packers
- Tool hydraulics
- Squeeze cementing
- Plug cementing guides and procedures
- Cement bond logs
- Cement equipment

INTENDED FOR

Toolpushers, Rig Superintendents, Drilling Supervisors, Drilling Superintendents, Drilling Engineers, and Drillers.
